

Beautifully restored historical treasure in Challis, Idaho. Includes full commercial kitchen, upstairs loft, downstairs dining area, river rock bar with ceramic tiled top, lovely fixtures, vaulted ceiling and more. All new wiring and plumbing. Built in the early 1870's, and now on the national historic register. Corner location with pretty landscaped courtyard. *The possibilities are endless with this charming building.*

Rich wood tones throughout the building set the tone for warmth and coziness. The large wood stove does a fabulous job heating both levels, and the rock hearth and rock bar, crafted with local river rock, add the regional flare for décor.

Beautiful tile work, and attractive cabinetry provide extra appeal for the front area.

Both the downstairs and the loft have attractive bathrooms.

In addition to the log restoration and construction of the loft, the owners did all this ceiling work themselves.

The property also offers a residence. Perfect for on-site business owner, or great as an income property. It is currently rented.
